

# How to Use iNaturalist

1

Record your observations

2

Share with fellow naturalists

3

Discuss your findings

## Download iNaturalist

Download the free iNaturalist app on any smart device. Take photos and upload them to iNaturalist anytime during the Parks for Pollinators BioBlitz.

Visit iNaturalist

## Observe Nature

Observe nature in and around your community and your parks during the Parks for Pollinators BioBlitz.

## Photograph Nature

Take pictures of wild plants, animals or other living things that you find. If you upload photos of domestic animals and planted flowers, make sure you mark them as captive/cultivated in iNaturalist when you upload them!

## Share Your Observations

Tap **“What did you see? View suggestions.”** Select the best match and choose **“SHARE”** to upload. Make sure to include the location!

## Learn About Your Observations

iNaturalist and experts from around the globe will help to identify your observations! Additionally, other users can comment and suggest identifications of your observations. Your observations contribute to biodiversity science by helping agencies know what pollinator and plant species are in their parks.
