

CITY RESIDENT DOWNTOWN PARKING PERMIT PROGRAM

ON SALE OCTOBER 1st
Delraybeachfl.gov/parking

The City of Delray Beach currently offers a Downtown Parking Permit Program for residents within city limits. Starting on October 1st of every year, city residents will be able to purchase or renew a downtown parking permit. They are valid for one year (expiration date of September 30th).

How the program works

This City Resident Downtown Parking Permit applies to anyone who resides in the City of Delray Beach (city limits). Proof of residency is required (see below). Each permit costs \$12 per year, valid Oct.1 – Sept. 30. If you purchase the permit after April 1, the cost is prorated to \$6. Only two City Resident Downtown Parking Permits are allowed per housing unit. Vehicle registration must be provided for each vehicle. Price is per permit.

Parking times and locations

The permits are valid only in designated garages, surface lots and side-streets in Downtown Delray (this does not include the beach). The permit will allow you to park for **free** parking seven days a week, between the hours of 12p.m. – 6 p.m. in the designated areas. (Please note, the city does not charge for parking until 12 p.m. daily). Permit holders must still abide by posted hourly time limits. Regular time limits and rates will apply starting at 6pm. See outlined parking areas on next page.

Keep in mind...

- For garage parking: If you are in the garages before 6 p.m., you park for free all night! (14-hour max time limit applies).
- A City Resident Downtown Parking Permit does not guarantee a parking space. Therefore, if there parking is not available at the designated locations, then this does not permit residents to park at other metered areas without payment.
