

## PERIMETER/SITE TREES

<i>Acer rubrum*</i>	Red Maple
<i>Bauhinia blakeana</i>	Hong Kong Orchid
<i>Bulnesia arborea*</i>	Verawood
<i>Callistemon spp.</i>	Bottlebrush
<i>Chrysophyllum oliviforme*</i>	Satinleaf
<i>Coccoloba uvifera*</i>	Seagrape
<i>Coccoloba diversifolia *</i>	Pigeon Plum
<i>Cocos nucifera</i>	Coconut Palm
<i>Cordia sebestina*</i>	Orange Geiger
<i>Delonix regia</i>	Royal Poinciana
<i>Elaeocarpus decipiens</i>	Japanese Blueberry
<i>Eugenia foetida*</i>	Spanish Stopper
<i>Filicium decipiens</i>	Japanese Fern
<i>Jacaranda mimosifolia</i>	Jacaranda
<i>Juniperus virginiana 'Silicicola'*</i>	Southern Red Cedar
<i>Krugiodendron ferreum*</i>	Black Ironwood
<i>Koelreuteria elegans</i>	Golden Rain
<i>Lagerstroemia indica</i>	Crape Myrtle
<i>Lagerstroemia speciosa</i>	Queen Crape Myrtle
<i>Ligustrum japonicum</i>	Japanese Privet
<i>Myrcianthes fragrans*</i>	Simpson's Stopper
<i>Myrica cerifera*</i>	Wax Myrtle
<i>Noronhia emarginata</i>	Madagascar Olive

<i>Peltophorum spp.</i>	Yellow Poinciana
<i>Phoenix spp.</i>	Date Palm
<i>Pinus elliotti*</i>	Slash Pine
<i>Senna spp.</i>	Cassia
<i>Tabebuia spp.</i>	Trumpet
<i>Taxodium spp.*</i>	Cypress

\*Native tree species

These are the species of trees that may be readily available in the nursery industry but may not quite meet the current City of Delray's standard for Trees, under LDR 4.6.16(H)(2)(d) Landscape Design Standards-Trees: "Shall be a species having an average mature spread of crown greater than twenty (20) feet and having trunks which can be maintained in a clean condition with over six (6) feet of clear mature wood. Tree species shall be a minimum of sixteen (16) feet in overall height at the time of planting, with minimum six (6) feet of single straight trunk with eight (8) feet of clear trunk and a seven (7) foot spread of canopy." Also they may require additional maintenance: to meet the clear mature wood requirement (interfering with CPTED standards or tree clearance for vehicles), due to excessive leaf loss or due to flower, pod, fruit or seed loss. For that reason these tree species may be better utilized in larger turf area and or in perimeter areas, that are away from parking areas.
